Corbett Powell

Operations, electronics and creative technology

Winnipeg, Manitoba, Canada | 204-803-9063
corbett.rocks@gmail.com | https://github.com/StateoftheeArt

PROFESSIONAL PROFILE

Customer service and operations professional with more than ten years of experience, including more than five years in supervisory and management roles.

CORE CAPABILITIES

Operations. E-commerce fulfillment, inventory records, supplier coordination, cash reconciliation and staff scheduling.

Team leadership. Customer service, resolving concerns, training staff and team communication.

Records and communication. Accurate records, clear documentation, written communication and practical problem-solving.

Technical learning. Electronic Engineering Technology coursework; self-directed projects in software, electronics and 3D printing.

EXPERIENCE

Key Holder / Operations Staff | Delta 9 Bio-Tech

Mar 2023 - Mar 2025 | Winnipeg

- Counted tills, prepared bank deposits and completed financial reconciliation.
- Tracked inventory in Excel and internal systems; followed regulated-product documentation requirements.
- Trained staff on procedures, safety and product knowledge.

Oil Change Technician | Valvoline Instant Oil Change

Aug 2022 - Dec 2022 | Winnipeg

- Worked in a fast-paced, safety-critical team that relied on clear communication.

Supervisor | The Joint Tobacconist & Glass Gallery

Jan 2021 - Jul 2022 | Winnipeg

- Managed e-commerce fulfillment and accurate, on-time orders.
- Used Google Workspace to streamline processing; coordinated suppliers and stock levels.

Kitchen Supervisor | Boston Pizza

Sep 2019 - Jan 2021 | Winnipeg

- Supervised kitchen staff and inventory while maintaining health and safety standards.

Assistant Manager | Domino's Pizza

Oct 2014 - Sep 2019 | Winnipeg

- Resolved customer concerns and escalations; handled cash, tills and deposits.
- Used sales data to plan staff schedules and inventory purchasing.

EDUCATION

Electronic Engineering Technology

RRC Polytech | Coursework

Technical Communications (A), Computer Systems (A+) and Programming (A+).

Introduction to Electrical Engineering Technology

RRC Polytech | December 2024

Certificate, with honours.

SELECTED PROJECTS

LifeformZ Lab

Software and project coordination | In development

A private multidisciplinary workspace for organizing and developing projects in software, design, electronics, fabrication, media and business.

Lab OS

Operating system | In development

Exploring a dedicated environment for the Lab workspace. Personal project work; broader readiness is still being tested.

Commander deck boxes and functional prints

Design and fabrication | Prototyping

Personalized deck boxes and functional 3D-printed objects, developed through CAD, prototypes and print preparation.

Reclipse

Interactive portfolio | Personal project

An editable résumé and portfolio with a liquid-silver sphere, local surface deformation, slowly settling ripples and reflective water. Sections emerge through slow submerge-and-rise transitions. A calm, luminous inversion of an eclipse.

TOOLS AND METHODS

Microsoft Excel, Word and Google Workspace. Uses AI-assisted tools to accelerate research, drafting and prototyping, with personal judgment and output checks.
